**Meet and greet the Author, Linda Porcello of Ashtabula, Ohio**  
**FEATURING THESE BOOKS:**

Come visit my little lake house!! Through this book you will feel like you are sitting on the deck next to me. Seeing what I see and feeling what I feel in the beauty of nature.

You will enjoy the peace and serenity of God's creation with me. Worship Him while watching the birds and other critters and seeing the flowers grow and blossom!

This little devotion book takes you through the seasons of Spring, Summer and Autumn in Northeast Ohio. Original, full-color photos compliment the devotions which include Scriptures that apply specifically to each one of them.

You are invited to experience the beauty of God's creation; His birds, flowers and butterflies; by reading each little devotion in this second book written by Linda Porcello. As in her first book, this one is written in letter format for easy reading. Enjoy reading one or two letters and then pick up the book again anytime to read more, without losing the theme of the book.

An added bonus is that Linda's friends wrote heartfelt letters to her about how God showed Himself to them. You will read about touching and poignant incidents as they share their private and individual experiences in each letter.

If you are looking for Christian encouragement in the beauty of nature and every-day life, you will find it here and more.
